# Highlights

## Easy to empty dust container

The dust container is perfectly designed to dispose dust without creating a dust cloud. Thanks to its unique shape and smooth surface, dust is collected at one side of the container and evenly glides into the dust bin.

## Life-long washable foam filter

The foam filter can be easily washed under the tap for life-long performance.

## 10 m action radius

10 m action radius for cleaning with less effort.

## Energy efficient motor

Highly efficient motor uses less energy to generate airflow. In combination with the nozzle, it delivers top dust pick-up results.

## PowerCyclone 5 Technology

The PowerCyclone technology delivers best cleaning results in one go through 3 highly

efficient steps: 1) Air enters fast into the PowerCyclone thanks to the straight and smooth air inlet. 2) The curved airpass quickly accelerates the air upwards in the cyclonic chamber. 3) At the top of the cyclone, the exit blades effectively cut out the dust from the air.

## TriActiveMax nozzle

TriActiveMax nozzle with 3-in-1 cleaning actions perfectly seals to the floor to maximize dust pick-up. 1) It gently opens the carpet with its specially designed soleplate to remove the dust deep down. 2) It sucks up big bits with its larger opening at the front 3) It sweeps up the dust and dirt closely alongside furniture and walls with its two side brushes.

## Philips Green Logo
